CARLISE IN THE RACE

He Will Be a Presidential Candidate at Chicago.

MR. CLEVELAND NOT IN IT.

The President Will Soon Make Known That He Is Not a Candidate For Re-Election—The President Willing That His Secretary of the Treasury Should Succeed Him in Office.

WASHINGTON, March 17.—Secretary Carlisle is a candidate for the presidential nomination at Chicago and a public announcement to that effect will soon be made by one of the secretary's close friends in the senate. This announcement, however, will not be made until President Cleveland has formally stated his purpose not to permit his name to be used in the convention in connection with a third term. It is learned on excellent authority that the president has fully decided upon this course, and it is expected that he will make known his determination within a short time. Although Secretary Olney's name has been considered with favor by Democratic leaders, it is known that he does not desire the nomination.

It is undoubtedly true that Mr. Carlisle's candidacy will have the support of Mr. Cleveland and the members of the cabinet. He will go before the convention as the representative of the "sound money" views of the administration. His friends in conducting the canvass for Mr. Carlisle's nomination, will urge that it be made on the sound money platform, and if he is successful at Chicago, will then make his issue prominent in the campaign leading up to the November elections.

Representative Patterson of Tennessee has received from Secretary Carlisle the following letter in response to ex-Speaker Crisp's declaration that silver had received unfriendly treatment at the secretary's hands.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
WASHINGTON, March 16.

Hon. Josiah Patterson, House of Representatives:

MY DEAR SIR—Your favor of Feb. 17 was duly received and ought to have been answered at once, but the pressure of official business has compelled me to delay a response until now. You state that in a speech delivered by Hon. Charles F. Crisp in the house of representatives, on the 14th day of February, that gentleman said: "He (meaning the secretary of the treasury) refuses to give silver for gold because he must hold the silver to pay the silver certificates and Sherman notes issued under the act of 1890, and when a Sherman note as issued under the act of 1890 is presented he redeems it in gold and not in silver. What mockery is this; what sort of friendly treatment is accorded silver by this law and the practice that obtains at the treasury of the United States?"

And you ask me to "state fully how you (I) have dealt with the silver currency since your (my) incumbency of the office of secretary of the treasury, and whether you (I) have, in dealing with the subject, discredited silver?"

In answer to your question I can only say that in all the operations of the treasury department during my administration of its affairs the legal tender gold and silver coins of the United States have been treated precisely alike, except that greater efforts have been made to keep silver coin in circulation than have been made to keep gold coin in circulation.

The amount paid out by the department in silver coins and silver certificates greatly exceeds the amount paid out in gold coins and gold certificates, and in no instance has the least discrimination been made against silver or its paper representative. In no instances has silver or silver certificates been refused in payment of a debt or demand due the government, and in no instance has the government refused to pay silver coins or silver certificates in discharge of its obligations when the holders of the obligations demanded or requested such payment.

When United States notes or treasury notes are presented for redemption gold is paid if it is demanded, and if silver is demanded silver is paid. Thus the coins of the two metals are treated exactly alike in making payments by the government, as well as in the discharge of debts due to the government. It has always been the policy of the treasury department to encourage the use of silver to the largest possible extent, and in order to accomplish this, standard silver dollars will be sent by express, at the expense of the government, to any one who will deposit an equivalent amount in silver certificates or in treasury notes of 1890 with the United States treasurer or any assistant treasurer, or with a national bank depository, and subsidiary silver coins will be sent by express at the expense of the government to any one who will deposit with such officers or banks any kinds of United States currency or national bank notes; but gold is not sent to anybody free of charge.

In August, 1892, there was a great and unusual demand in nearly every part of the country for currency of small denominations, and in its attempts to supply this demand the treasury department paid out, in defraying the expenses of the government and in exchange for other forms of currency all the silver that could be lawfully used for these purposes, so that for a short period it was compelled to suspend payment in standard silver dollars, except in the redemption of silver certificates and treasury notes of 1890. The law authorizing the issue of silver certificates upon deposits of silver provides that "the coin deposited for, or representing the certificates, shall be retained in the treasury for the payment of the same on demand."

It is therefore plain that whenever the amount of silver dollars in the treasury does not exceed the amount of silver certificates outstanding, the secretary of the treasury can not, without a violation of law, pay out such silver except for the redemption of certificates. At such times he has no more right to exchange silver dollars for gold than he has to pay them out in any other manner. But there is also another fund in the treasury which is required by law to be held for a different purpose. It consists of the bullion and the standard silver dollars coined from the bullion purchased under the act of July 14, 1890. That act provides for the purchase of silver bullion at the market price and the issue of treasury notes in payment for it, and it also declares that "no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom, then held in the treasury purchased by such notes."

Under this provision the secretary is required to keep in the treasury at all times an amount of silver bullion, at its cost price, and in standard silver dollars coined from the purchased bullion exactly equal to the amount of treasury notes outstanding, and he can not, therefore, lawfully use such standard silver dollars except for the redemption and cancellation of treasury notes.

My letter to the United States senate, upon which Mr. Crisp's statement seems to have been based, was written on the 17th day of August, 1893, and at that time there was no free silver in the treasury; that is, there were no standard silver dollars in the treasury except such as the law required to be held for the redemption of silver certificates and the treasury notes of 1890, and these redemptions were made at all times during the month and every other month when these certificates of currency were presented. During the month of August, 1893, treasury notes to the amount of \$1,273,267 were redeemed in silver and cancelled, and since the 1st day of August, 1893, the total amount of such notes redeemed in silver is \$19,533,722. Prior to my administration of the affairs of the department none of these notes had been redeemed in silver or cancelled.

Since the beginning of this administration nearly \$110,000,000 in gold has been procured in exchange for other forms of currency. Of this amount \$8,915,812 has been procured in exchange for silver coin, and \$10,329,330 in exchange for silver certificates. The department has never refused to exchange silver for gold when it had silver that could be lawfully used for that purpose, and if it had so refused I am wholly unable to see how it could be considered a discrimination against silver. Is a refusal to pay out gold in exchange for silver a discrimination against gold? If not, it of course follows that a refusal to pay out silver for gold is not a discrimination against silver.

In response to your verbal inquiry concerning the coinage of standard silver dollars during the present administration, you are advised that it amounts to the sum of \$6,762,000 up to the 15th day of this month, while the whole amount of such dollars coined in this country from the establishment of the mint in 1792 up to February, 1878, a period of 86 years, was \$8,030,000.

I enclose herewith a copy of my letter to the United States senate referred to above. Very truly yours,

J. G. CARLISLE.

Fatally Beat the Girl's Father.

ALLIANCE, O., March 17.—William Seifert, aged 50, a farmer residing west of this city, died yesterday from injuries received 10 days ago in a fight with Andrew Fifer, a bachelor nearly as old as himself. Fifer was in love with Carrie, the 20-year-old daughter of Seifert, but the father would not permit him to call on her. Meeting the lover near his home one evening the angry father attempted to chastise him. Fifer picked up a club and gave the old man a fearful beating. The next day Fifer disappeared and has not been heard of since. Police are searching for him.

Fur Establishment Robbed.

NEW YORK, March 17.—The fur establishment of Charles Johansen, in One Hundred and Twenty-fifth street, was robbed during the night by three men, who carried their booty, consisting of furs valued at \$6,000, away in a coach. A laborer saw the carriage drive up to the door of the store. A few minutes later he noticed three men come out of the store with their arms full of furs. He reported the matter to the police at once, but the burglars escaped with their booty in the coach.

Runaway at a Funeral.

OTTUMWA, Ia., March 17.—Charles Morrison was killed, a child was fatally injured, a dozen persons, mostly women, seriously hurt and the hundred or two members of a funeral party almost panic-stricken late yesterday afternoon by the running away of one of the teams in the funeral procession. Morrison's horses became frightened and dashed frantically through the procession, frightening other teams, causing several runaways and narrow escapes from death.

Must Distribute the Seed.

WASHINGTON, March 17.—The senate joint resolution directing the secretary of agriculture to purchase and distribute seeds, bulbs, etc., as has been done in preceding years has become a law without the president's signature, the resolution not having been returned to congress within the constitutional 10 days' limit. Secretary Morton refused to carry out the old law and vigorously opposed the passage of the present more mandatory act.

Explosion in a Stone Quarry.

BILLINGS, Mon., March 17.—At the North Pacific stone quarries, 14 miles east of here, yesterday, two laborers were killed by a powder explosion and three others were seriously injured.

HERE IS AN OUTRAGE

An American Citizen Shot by Spanish Soldiers in Cuba.

HE WAS GUILTY OF NO CRIME.

The Fact of Him Being an American Had No Weight With the Spanish Soldiers. An Investigation Has Been Demanded by Our Consul Latest News Relating to the Disorders in Cuba.

HAVANA, March 17.—Dr. Jose Manuel Delgado, the American citizen who is reported to have been shot and nearly killed by Spanish troops under the command of General Melquiz, arrived here yesterday. He is so seriously injured that he had to be carried on a stretcher. The captain general has promised the promptest inquiry into the circumstances in the case, and has given assurances that the guilty persons will be most severely punished.

Dr. Delgado says that a number of the employees of the Delgado plantation near Bainoa, have been killed by the troops, including the brothers Tipia and the two Guerras, father and son. The circumstances in the case, so far as they can be gathered at present, seem to point to a most gross and deliberate outrage upon the part of the Spanish soldiery, who were made aware that Mr. Delgado and his aged father were both American citizens. But this fact appears to have had no weight with the Spanish officers and Mr. Delgado is said to have been bound and shot without trial and without any justification. The doctor was left for dead and eight of his father's employees were killed.

The United States consul general, Ramon O. Williams, has taken the matter in hand, and no stone will be left unturned to bring the Spaniards to justice. Captain General Weyler has ordered a thorough investigation to be made into the disaster at Cano, seven miles from here, by which 12 soldiers belonging to the San Quintin battalion were killed and a captain, four lieutenants and 27 soldiers belonging to the same corps wounded by the Spanish garrison of that town, who mistook the Spaniards for a band of insurgents that had previously attacked the place, and been repulsed.

Colonels Prats, Palma and Sola have killed four insurgents during recent skirmishing. Colonel Hernandez at Waterloo, and Calixto, south of Artemisa, province of Pinar del Rio, has split in two a large band of insurgents, which were following the route of his column. The insurgents lost four killed. The column of troops commanded by Colonel Lesasco started in pursuit of one part of the insurgent force and the Spanish forces from Neptuneo also took part in the pursuit. They caught up with the insurgents between Minerva and Neptuneo. The insurgents, who were marching westward, left six killed on the field, and the troops lost seven killed.

A band of 150 insurgents entered the village of Caimanera, in the Cienfuegos district, and burned several houses, a store, the warehouse, the wharf and a ship loaded with kindling wood. The insurgents have also burned the fields and plantations of Boyenir and the plantation of Arroyo in Matanzas. The municipal house of Union Reyes and the fields and plantations of Recreo Santa have also been destroyed. Insurgents have burned the fields and plantations of Santa Catalina. It is reported here that Maximo Gomez intends to go into the province of Santa Clara.

THE VENEZUELA DISPUTE.

England Has Received Official Proposals From the United States.

LONDON, March 17.—The under secretary of state for foreign affairs, George N. Curzon, in the commons yesterday, admitted that the government had received official proposals from the United States relative to the Venezuelan dispute, and that they were now under consideration. He added that it was not the practice to state the nature of the proposals while they were under consideration, but it was not correct to describe them, as stated in the question put to the government, as an expression on the part of the United States of willingness to accept or propose a scheme for a joint commission, to report on the Venezuelan boundary dispute.

Must Go Over the River.

CINCINNATI, March 17.—The circuit court has sustained Judge Buchwalter's decision and remanded Jackson and Walling, the slayers of Pearl Bryan, to the sheriff of Campbell county, Ky. The attorneys for the accused are given a reasonable length of time to appeal the case to the United States supreme court. Until then the prisoners will remain on this side of the river.

Threatened Tie-Up.

SEATTLE, Wash., March 17.—There are mutterings of a strike on the Great Northern in consequence of the cut in salaries announced a few days ago as effective from March 1. Employees say if the cut is made applicable to trainmen the road will be tied up as tight as a drum. The telegraph operators especially are incensed at the reduction.

COLUMBUS, O., March 17.—Peter Gaskins, a convict in the state prison from Clermont county, committed suicide yesterday by drinking sulphuric acid, which he obtained recently from the scouring shop. He was received only last January on a three years' sentence for cutting to kill.

DAMAGING EVIDENCE.

A Young Man Charged With Murdering His Own Father.

LANCASTER, Pa., March 17.—The citizens of this town were startled yesterday afternoon by the arrest of William Miller, aged 28, for the murder of his father, William Miller, 70 years old, on Jan. 25, when the Champion forge and blower works were destroyed by fire and the aged man's remains were found in the ruins. Charles Tinker was arrested as an accomplice.

The arrests were made by Detective S. A. Elwell of New York who has been working on the case since the beginning of February. Previous to the date of the alleged crimes of arson and murder, the town had been terrorized by numerous incendiary fires, and no trace of the guilty ones could be found. The fire at the Champion works caused a loss of \$60,000. At the time the old watchman, Miller's father, could not be found. Three days later his charred body was found among the debris of the burned building. The position of the body gave rise to suspicions of foul play, and an investigation was begun by the local police who offered a reward of \$500 for the capture of the perpetrator of the double crime. This was doubled by the owners of the works. There seemed to be a general absence of clues and the police apparently had accomplished but little when the surprise came yesterday in the arrest of Miller and Tinker.

Detective Elwell, who has been quietly working up the case, says he has conclusive evidence against Miller. It is said the accused son bears a bad reputation, and has been involved in previous scrapes of a most serious character. It is alleged that he was seen in the vicinity of the fire 10 minutes before an alarm was sounded, without any money, while a short time later he had plenty of money and spent it freely.

It is further alleged that a few nights before the tragedy he was heard to say if the "old man" did not give him money he would knock him in the head. The old watchman is known to have carried considerable money on his person at all times, and his accused son is said to have carried \$170 insurance on his father's life. Two weeks ago he is alleged to have started for the home of H. K. Kaiper, one of the officers of the works, with the avowed intention of "doing him up," but was intercepted on the way, and kept from carrying out his design. He was in the United States navy at one time, but deserted. He was preparing to leave town when arrested.

BRITISH STEAMER DESTROYED.

The Vessel Blown to Atoms and Twenty-Two People Killed.

LONDON, March 17.—The British steamer Matadi, which sailed from Sierra Leone, on Feb. 5, has been totally destroyed at Boma by an explosion of gunpowder.

The explosion occurred at Boma on March 7. Boma or Bimma is on the Congo river, only about 50 miles from its mouth.

Twenty-two of the Matadi's crew including officers and 16 natives were killed. Sixteen of the crew escaped without serious injury. The Matadi had on board 10 tons of gunpowder, a quantity which sufficiently accounts for the disastrous effects of the explosion. The mails and the spren which were on board were wrecked. The victims of the accident were asleep at the time of the disaster. The owners of the steamer escaped.

Fire in Cleveland.

CLEVELAND, March 17.—Fire of an unknown origin yesterday destroyed the four-story brick building at 747 Cedar avenue, owned by the F. H. Kimball estate and an adjoining residence owned by H. A. Vaughan. The Kimball building was occupied by a number of manufacturing concerns, all of whom lost everything. The loss on building and contents will approximate \$45,000, with an insurance of about two-thirds.

Pin Company Assigns.

TOLEDO, March 17.—The Great Western Pin company assigned yesterday, and named Fred B. Dodge as assignee. The schedule of assets and liabilities was filed, and shows the former to be \$75,000 and the latter \$40,000. The assignment is due to the fact that creditors pressed their claims too rapidly on account of business changes in other manufacturing plants, whose owners are large stockholders in the pin company.

Dead in His Bathtub.

TOLEDO, March 17.—Dr. Charles Massbacher, a prominent young physician of this city, was found dead in his bathroom Sunday with a bullet hole in his head and under the most mysterious circumstances. He was found lying in the bathtub and the revolver was found at the farthest corner of the room. His relatives are of the opinion that he did not commit suicide and the police are at a loss to account for his death.

Trouble Over a Bridge.

GUTHRIE, O. T., March 17.—Some weeks ago, under an act of congress, a bridge was built across the Arkansas river, connecting Blackburn with the Osage reservation. Indian Agent Freeman stopped work with the Indian police, but was ordered to desist by the United States court. Now he has induced a cattleman to fence in a large pasture on the Osage side across the Osage end of the bridge, which effectually closed the bridge and road. Oklahoma citizens are organizing to cut the fence and open the road, while a band of cowboys is on guard.

AN INTERURBAN LINE

A Great System of Electric Car Lines Proposed.

A NETWORK OF IRON RAILS.

Various Cities and Towns in the Northern Part of the State to Be Connected Messrs. Whitney, Lamont, Johnson and Hanna Said to Be Connected With the New Enterprise—Indiana State News.

LAPORTE, Ind., March 17.—The state ment is made here that a syndicate of New York and Cleveland capitalists are behind a project to build a system of interurban electric car lines in northern Indiana, connecting various cities and towns.

The design, it is said, is to start from Lake county, where the syndicate already owns property, and establish a like network of such connection, extending around to touch South Bend, Valparaiso, Michigan City, Laporte, Elkhart and half a dozen or more other places. The syndicate is supposed to be headed by Dan Lamont and ex-Secretary Whitney. Its active agents are ex-Congressman Johnson and Mark W. Hanna.

Held For Trial.

RICHMOND, Ind., March 17.—Morris Dalton of Indianapolis, who made a murderous assault upon two trainmen between Cambridge City and Indianapolis, was brought before Mayor Ostrader yesterday for a preliminary hearing. The evidence showed that he pushed O. M. Thornburg, brakeman, beneath the train, in an endeavor to kill him, and that he afterward assaulted a passenger, and made an attempt to kill Conductor Michael Kelly. Dalton made the plea that he was drunk and not accountable. He was placed under \$1,000 bonds for his appearance in the circuit court.

Tunnel Burned.

GEORGETOWNS, Ind., March 17.—The Lake Erie and St. Louis tunnel, 300 feet in length, caught fire at an early hour yesterday morning, and the entire woodwork was burned out. It will take several days to clear away the debris, and through freight traffic will be entirely abandoned until the tunnel is ready for use. Passenger traffic may be resumed before the tunnel is cleared by transferring passengers and baggage.

Injured More Than Was Thought.

BRAZIL, Ind., March 17.—Reports from Asherville are to the effect that J. W. May and Lou Gumm, two of the miners who were injured in the Vandalia wreck at Center Point last Friday, are in a critical condition. May is injured internally and is unable to retain either medicine or nourishment. Gumm's limbs are paralyzed and he is also injured internally.

Carried His Revolver to Church.

FOWLER, Ind., March 17.—As Charles Henry was exchanging his revolver from his coat to his pants pocket during prayer service at the Free Methodist church, north of this city, Sunday night, the weapon was discharged, causing quite a panic. With the exception of a flesh wound received by Henry no one was hurt.

Both Arms Broken.

FORT WAYNE, March 17.—While walking in her sleep last night, Mrs. Mary Franz, proprietress of the well known Windsor hotel, fell down a long flight of stairs, and was found unconscious. She suffered a fracture of both arms near the elbows, and received an ugly gash on the head.

Damages For Murdered Husband.

FOWLER, Ind., March 17.—Mrs. Frank Ducharme, whose husband was murdered by Freeman Pritchett, a saloon-keeper, about 10 days ago, has filed a suit against the latter in the Benton circuit court, demanding \$2,000 damages.

Crushed Between Logs.

GREENSBURG, Ind., March 17.—While loading logs on a car at Holton, Ripley county, Henry Simpkins was caught between two logs and both legs were broken, besides being horribly mashed.

STORMS IN ENGLAND.

Great Damage Done to Vessels and Other Coast Property.

LONDON, March 17.—Terrible gales have occurred in the west of England and Ireland. The force of the wind and waves was such that the piers at Liverpool have been washed over and flooded. Several derelicts and disabled vessels have been towed into the Mersey. The ship canal has been made un navigable by the storm and the walls of the canal were severely tried by the wash of the waves.

The flying squadron, which was the center of so much attention a few weeks ago when the crisis between Great Britain and Germany was acute, had to make for Queenstown for a harbor in some distress, the vessels of the squadron having shipped large quantities of water.

Woman Killed in a Hailstorm.

LONDON, March 17.—A dispatch to The Times from Melbourne says that a terrible hailstorm has occurred there, the hail stones being the largest on record. Windows were smashed and buildings unroofed and wrecked by the force of the storm. Shipping also was damaged and sunk and trees were uprooted. One woman is reported killed.

REPUBLICANS believe in bayonet rule.

Oh what a record Kentucky Republicans are making!

BRADLEY'S Presidential boom has collapsed,—if it ever really existed.

Now let Governor Bradley resign and step out. He has brought disgrace enough to Kentucky already.

TEN out of twelve county conventions in Missouri instructed for McKinley for President, and not one for Bradley.

GOVERNOR BRADLEY has been boss of the Kentucky Republicans so long that he now imagines he owns the State and has the right to usurp all power.

REPUBLICAN conventions in New York, Morton's home State, are instructing for McKinley. Wouldn't be surprised if some of the conventions in Bradley's home State did likewise.

THE indignation of the people of Frankfort over the action of Governor Bradley in calling out the troops culminated before noon Monday in a meeting at which the Governor was denounced, his action being characterized as "a usurpation of authority and an insult to the people of the Commonwealth." The people of Frankfort are as well acquainted with the condition of affairs there as Governor Bradley, and it is not strange that they are so incensed over his action.

THE reports from Frankfort indicate that Governor Bradley allowed the sensational correspondent of the Commercial Gazette to so work on his fears that he finally imagined the Democratic law-makers were on the point of seizing him and thrusting him into some dark and dismal dungeon. The troops were at once called out. The correspondent is no doubt laughing in his sleeve now at his success in making such a fool of the Governor. And Bradley is no doubt regretting his hasty action.

WHAT HAVE REPUBLICANS DONE?

"With great flourish of trumpets the Republicans, who hold vast majority in the House of Representatives and organized the Senate of the United States, told the people of this country what they proposed to do," remarks the Chicago Chronicle.

"Well, what have they done? In session since the first day of December last, what have they done? May we not have some specification? They professed themselves to be wonderfully gifted in the matter of creating public confidence, increasing public revenues, making everybody, whatever his business and however conducted, rich and happy. But what have they done? Let us try, if we can, to get down to a specification. If they are competent, surely three months ought to demonstrate that by their fruits they are justified in their claim. Will they tell us of anything they have done?"

"The House passed a tariff measure. The Senate gave public notice that the tariff measure shan't go through. The House, instead of meeting the recommendation of the Executive, who understood the situation and who did not ask a tariff bill, but did ask for sound legislation on the money question, passed a ridiculous bill of its own. That the Republican Senate sent back with a free coinage measure."

"But where is the affirmative legislation? Where is anything accomplished? What has Mr. Reed done as Speaker, and what have all the great Republican statesmen of the Senate done? They have been sitting in Congress for ninety days and where are the results of their capacity?"

"Not a measure of public concern and utility has been perfected. This Republican House and this Republican Senate stand before this country as utterly imbecile and impotent as anybody of statesmen ever appeared before a constituency whom they had deceived by repeated assertions of their sagacity and their prowess."

"The Republican majority in Congress is an utterly fruitless majority. It has boasted much, it has accomplished nothing."

Mrs. Mary Hickey has sold to Mr. John R. Brodt 44 acres of land on the Taylor's Mill pike for \$1,800 cash.

UNDER MARTIAL LAW.

Sensational State of Affairs Existing at Frankfort, Kentucky.

FRANKFORT, March 17.—Yesterday's sensation in the senatorial contest flashed in the pan. Bitter talk and a fruitless ballot tells the story, and those features have been present every day since the fight began. The scenes, however, had a different setting and to the dramatic personae were added about 400 blue coats from Louisville, Lexington and Frankfort. The salutary effect of the this military display does not appear on the surface because the reason for its presence was apprehension and not the existence of violence.

Three companies of the state guard took up their position on the statehouse grounds yesterday morning, and the Kentucky legislators filed through picket lines to their meeting places in the capitol. The presence of this armed force was the subject of numerous resolutions and acrimonious debate in both houses before and after the joint session. The senate, by a strict party vote, adopted a resolution reciting the action of Governor Bradley in calling out the militia, which was declared to be "without warrant of law, necessity or justification," and appointing a committee headed by Senator Goebel to "inquire into such contempt breach of privilege," and report to the senate for final action. This was adopted as a substitute for a resolution offered by Senator Bronson, violently denouncing Governor Bradley, and declaring the purpose of the senate to suspend all legislation while the military guard remained in possession of the capitol.

The house got into a tangle over a number of resolutions offered by both sides all of which were finally withdrawn.

At the joint session one ballot for United States senator was taken to fulfill legal requirements, after the Democrats and Populist Poor had broken a quorum by refusing to respond to roll-call.

Adjutant General Collier announces that the militia will remain on duty until the legislature adjourns.

This little note explains why the Governor called out the State troops:

Dear Colonel: Bronston got in from Lexington to-night, and a scheme is on foot to arrest you for usurpation of office. I thought that you should know this. Klair, Assistant Sergeant-at-Arms of the Senate, brought word from Lexington to-night that the militia there had been called out. What is there in it? Your friend,
D. ELLIOTT KELLY.

The note was addressed to Governor Bradley. Mr. Kelly is the sensational correspondent of the Cincinnati Commercial Gazette. He was present afterwards at a talk between Senator Bronston and Governor Bradley and admitted that his note was based simply and solely on "rumor." But it served to frighten the Governor almost out of his boots and the State troops were forthwith ordered out. What must the people of Kentucky and of the Nation think of a Governor who on such an idle rumor would do what Bradley has done?

Lace Curtains are now of special interest. Our new ones have arrived and everyone says they are the handsomest designs we ever had. We want all prospective Curtain buyers to see them before the choicest are gone. You can buy a neat pair for \$1, very pretty ones for \$1.25 and real beauties at \$2.50.

About Mattings.—The best Eastern agents came to us and we bought the choicest numbers of their collection. And then we have a man to put them down who knows just how. We have the new shades of green and blue. Red of course has a place in the collection and a big variety of the popular tan combinations. The prices are exactly right, beginning with 10 and 12½, ending with 37½, beside all the intermediate numbers.

Carpets.—Carpet-buying time is here, and the dollars saved for new carpets should go where they will do most good. There is lots of trash sold under the guise of good carpets nowadays and the buyer is none the wiser until the wear begins. We don't insult your intelligence by showing cotton mixtures for all wool. Won't you let us prove to you how competent we are to sell you good carpetings?

Gold Belts—those pretty ones you hear so much about. Have them in several styles. Wear one with an old dress and it will tone it up wonderfully, or put it on with a new gown and you are in the height of fashion. The supply won't linger long when we say they are priced at 25c.

Ribbons.—If you are ready to start spring dressmaking we are also ready with the proper trimmings. The new printed warp ribbons, Orientals and a half dozen other styles compete for your attention, and there's all the more reason for your giving it when prices run like these: Warp Prints, 25, Orientals, 35, Plaids, 50c.

Dress Garnitures are open and the newest spring trimmings can be seen as early as you wish. Not a hint of their beauty here, only it is safe to say they will surprise you. Come early. The showing costs you nothing and is a pleasure to us. The procession starts with pretty trimming for 10 a yard.

Lace Collars.—Stylish and new and marked for quick selling. They will make the old waists do for many a week and save their cost in the economy. We offer beauties for 75.

HORSE SALES.

Daulton Bros.' Stable Present—a Lively Scene Monday—A Big Crowd Present.

Daulton Bros.' livery and sale stable presented the appearance of a great horse market yesterday.

The ground floor, the second floor and the pavement were crowded and a great number of horses were offered.

The crowd present was as large as the crowd that usually attends the big Woodard & Shanklin sales at Lexington.

And many more would have been present had the weather not been so inclement.

Mr. Joseph Kindig, of York, Pa., purchased eighteen head of horses, all in good flesh and color. He expected to add a few more this morning to his purchase and this afternoon will ship them to his home in Pennsylvania.

Mr. Kindig will return in about four weeks when he expects to get another fine bunch of horses for his Eastern market.

Cincinnati Symphony Orchestra.

The ninth afternoon and evening concerts of the Symphony Orchestra take place on Friday and Saturday next. Miss Minna Wetzler, the soloist, is a Chicagoan by birth, and was the favorite pupil of Mme. Clara Schumann, in whose family she lived for a number of years. Following is the program:

Overture, "Oberon".....Weber
Symphony No. 4.....Schumann
Piano concerto in A minor.....Grieg
Miss Minna Wetzler.
Siegfried Idyl.....Wagner
Rhapsody No. 2.....Liszt

Laughlin Case.

A special from Augusta says Judge Harbeson does not think it is necessary for Laughlin, the murderer, to be in court when his case is called to set the day of the trial, and that the prisoner would probably not be taken from the Maysville jail until July.

A report was out this morning, however, that Laughlin would be taken to Bracken to-day, but Jailer Johnson had received no word to that effect at 9:30 o'clock.

River News.

One bottle will answer for all the family and costs only 50 cents; the large size \$1. Buy the genuine. Manufactured by the California Fig Syrup Company only, and for sale by all druggists.

The Hill House property, corner of Front and Sutton, is advertised for sale elsewhere in this issue by Mr. R. B. Lovel, executor of the late Mrs. E. A. Hill. This is a valuable piece of property and a most desirable location for a first class hotel. It fronts on Front 88 feet and on Sutton 145 feet. The house contains fifty well lighted and well ventilated rooms, and it could be fitted up at comparatively little cost. If not sold beforehand, it will be offered at public auction April 22nd.

THE BEST SPRING MEDICINE

is SIMMONS LIVER REGULATOR. Don't forget to take it. Now is the time you need it most to wake up your Liver. A sluggish Liver brings on Malaria, Fever and Ague, Rheumatism, and many other ills which shatter the constitution and wreck health. Don't forget the word REGULATOR. It is SIMMONS LIVER REGULATOR you want. The word REGULATOR distinguishes it from all other remedies. And, besides this, SIMMONS LIVER REGULATOR is a Regulator of the Liver, keeps it properly at work, that your system may be kept in good condition.

FOR THE BLOOD take SIMMONS LIVER REGULATOR. It is the best blood purifier and corrector. Try it and note the difference. Look for the RED Z on every package. You won't find it on any other medicine, and there is no other Liver remedy like SIMMONS LIVER REGULATOR—the King of Liver Remedies. Be sure you get it.

W. E. RILEY, of Louisville, is announced as a candidate for the Presidency of the State League of Republican clubs. A meeting of the league will be called for Lexington shortly before the State convention, on April 15, and officers for the ensuing year will be elected.

CAPTAIN THOMAS BRUCE, of Carrs, Lewis County, was stricken with paralysis Thursday night and is in a critical condition. He was for many years one of the most prominent and popular steamboat Captains from Cincinnati to New Orleans. He is a brother of Hon. W. H. Bruce, of Louisville, and father of Mrs. T. J. Henry, of this city.

A RUMOR was circulated on the streets last evening that Jackson and Walling, the Ft. Thomas murderers, would be brought here on 10:46 train last night, and a big crowd went to the depot to get a look at the prisoners. They were disappointed. The prisoners were remanded to Kentucky yesterday for trial, but Sheriff Plummer, of Campbell, had not brought them over to Newport at last accounts.

THE Knights of Pythias of Covington have already begun arrangements for the entertainment of the Grand Lodge of K. of P. of Kentucky, which meets in that city September 15 to 18 of this year. Each of the three lodges of the city has appointed a committee of five members. This committee has elected Max Herbst as President; E. E. Beach, Vice President; T. L. Metcalf, Secretary; George Glendon, Treasurer, and M. H. McLean, Corresponding Secretary. The committee has begun active preparations toward making this meeting of the Grand Lodge the most notable in its history.

THE New York correspondent of the Cincinnati Enquirer says: "Dr. Cleon C. Owens, of Maysville, Ky., dropped into New York on March 9, stopped at the Imperial and, after hastily transacting some business, hied away to Kingston, up the Hudson. On March 10 he was married to Miss Mary A. Van Slyke, a beautiful young woman who belongs to one of the famous old Knickerbocker families of this region. She is quite well known in Cincinnati, as she has visited in Judge Cadwallader's family, and there met the handsome Kentucky physician who is now her husband. Dr. and Mrs. Owens will spend their honeymoon in and about New York, going to Maysville the last of the week."

It May Do As Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

CHRISTIAN ENDEAVORERS.

The Kentucky State Convention This Year to be Held at Paducah. Prominent Men Expected

Paducah captured the '96 State Convention of Christian Endeavor last year at Louisville, after making a most vigorous fight for it, and began at once making preparations to make the meeting the best the State Union has ever held. They are already saying that the '96 convention will eclipse all former ones in that they will have the most consecrated and talented men the country can afford. From information from the Secretary of the convention, in regard to eminent men secured already, with the convention yet three months off, it seems that their success is assured. Below are a few of the able men who have expressed a willingness and a desire to be present:

Dr. Clark, the President of the United Society. Paducah has secured a conditional promise from him to be present, and in case he cannot come, Amos R. Wells, with whom all Endeavorers have become acquainted through his writings in the "Golden Rule," will take his place.

Dr. J. D. Rondthaler, the "Indiana Cyclone." His name is already down for the convention sermon.

Dr. James Lewis Howe, now of Washington and Lee University, who has promised to be present during the entire session.

Dr. Cannon, one of St. Louis' most noted divines; Rev. J. W. Darby, of Evansville, a member of the Board of Trustees of the United Society; Rev. Hugh Spencer Williams, of Memphis, a distinguished Southern minister, and Mr. W. E. Noel, an enthusiastic worker from Tennessee. Besides these, able men from all over the State will be present, and contribute to make the '96 convention one that shall transcend all former ones in spirituality and power.

Louisville Christian Endeavorers want the International convention for 1898. A committee has been organized to work for it and they hope to have Louisville so thoroughly advertised by July, 1896, that the trustees of the United Society will be ready to accept the invitation.

PROCEEDINGS OF CONGRESS.

But Very Little Accomplished in Either Body of the National Legislature.

WASHINGTON, March 17.—The senate had an hour of spirited Cuban debate yesterday after the early part of the day had been given to set speeches by Mr. Lodge on immigration and Mr. Pugh on silver. The Cuban discussion was mainly important in bringing out the full reading of a statement of the Spanish side of the case by Senor Dupuy de Lome, the Spanish minister. This had been referred to some days ago, but could not be made public. Yesterday, however, Mr. Morgan read a letter from Secretary Olney saying the Spanish minister gave his permission for the public use of the statement. It claimed to detail the insurgent methods of guerrilla warfare, the burning of cane fields and the disorganized character of the insurgent bands.

Mr. Morgan commented severely on the minister's statement. The senator had several sharp controversies with Mr. Hale over various phases of the Cuban question. During the day Mr. Elkins offered a resolution directing the committee on foreign affairs to report as to the status of war in Cuba before a vote was taken in the senate.

Proceedings in the House.

WASHINGTON, March 17.—Yesterday was suspension day in the house and several bills were passed. The most important was the Oklahoma homestead bill which relieves homesteaders in Oklahoma of the payment of the purchase price of their homesteads. The house also decided at the request of Mr. Hitt, chairman of the committee on foreign affairs, to consider the resolutions censuring Ambassador Bayard on Wednesday.

GOLD RESERVE.

Secretary Carlisle Makes a Request Upon the National Banks.

WASHINGTON, March 17.—The treasury yesterday lost \$132,100 in gold coin and \$28,700 in bars, which leaves the true amount of the reserve \$127,564,712. The secretary of the treasury has made a request of depository banks now holding government funds on bond account to transfer within the next few days 20 per cent of their holdings. This will amount to something over \$4,000,000, as the whole amount held approximates \$20,000,000. The amount of gold now unpaid to settle the principal of the bonds is about \$7,500,000.

This call on the banks is stated at the treasury is not made with a view to influencing the rate of exchange, but for the purpose of closing up the bond transaction. All of the gold and currency now held by the banks on bond account is included in the treasury statement of the gold reserve and in the available cash balance.

SHOT HIS YOUNG WIFE.

Serious Charge Placed Against a Young Georgian Recently Married.

ATLANTA, March 17.—The details of a brutal butchery of a wife by her young husband are given in a special to The Journal from Gainesville, Ga. Henry Patterson, 25 years of age, and a son of Homer Patterson, a well-to-do country citizen, recently married a young lady of high social position.

Friday last Patterson reported that on the night before he had loaded his gun to shoot a chicken and that the cap failed. Going back to the house for an-

other cap the hammer slipped and the load went into the head of his wife who was asleep beside her baby. The story was not a plausible one and an inquest developed the fact that the woman had first been killed with an ax and then shot. Patterson was arrested.

Mexico and Spain.

MADRID, March 17.—The attention of the newspapers of this city has been attracted to the fact that long interviews have been taking place between the Mexican minister here and the Spanish minister for war and minister for foreign affairs. The papers declare that the ties between the Mexicans and Spaniards tighten daily and that Mexico's position makes her naturally the vanguard against "Yankee encroachments upon Latin America."

Found the Moonshiners.

LOUISVILLE, March 17.—While Deputy United States Marshal W. A. Bird of Wolfe county and Detective George Drake of Lexington were looking for an illicit still in Morgan county they were fired upon by moonshiners and Drake was wounded in the leg. The officers returned the fire and a moonshiner, whose name could not be learned, was killed.

Asphyxiated With Natural Gas.

SANDUSKY, O., March 17.—James H. Stewart, a well known railroad builder and manager, died at his residence here yesterday. He was asphyxiated by natural gas. He built the Winona-St. Peters road, the Midland of Ohio and was long connected with the Baltimore and Ohio Southwestern. He leaves a wife, son and daughter.

One Arrest Made.

BOWLING GREEN, O., March 17.—Frank Weaver, a well known citizen of Weston, has been arrested and charged with being one of the gang that robbed a grocery and jewelry store at Milton Center last week, loaded the two safes on a handcar and took them into the country, where they were dynamited and several hundred dollars worth of plunder secured. The authorities expect to make several more arrests. It is thought that an organized gang has committed the many recent robberies in the vicinity.

GLENNY GLASS CO. VS. TAYLOR.

Opinion of the Court of Appeals Reversing a Case From Bracken County.

In reversing the case of the William Glenn Glass Company versus Taylor, taken up from Bracken County, the Court of Appeals says:

First—The law of the place of payment does not necessarily govern the rate of interest which may be contracted for. It is a question of intention, and all the facts must be considered in order to determine what law the parties looked to as controlling their rights under the contract.

Where a note was signed by the principal obligor in the District of Columbia and sent by him to Kentucky, where it was signed by the surety, who mailed it to the payee in New York City, the note then being assigned by the payee to the plaintiff for the purpose of raising money for the principal, although the note was made payable in New York, its validity will be determined by the law of Kentucky, where it was fully executed, and therefore, although the note recites that it is to bear 8 per cent. interest, the New York statute providing for the forfeiture of both principal and interest where more than 6 per cent. interest is contracted for, will not control.

Second—The court will presume, in the absence of plea and proof to the contrary, that the note was valid under the law of the place where it was executed by the principal obligor.

Third—Although this was an ordinary action submitted to the court without the intervention of a jury, and there was no separation by the court of its conclusions of law and fact, yet, in the absence of any evidence to support the defense, a judgment for defendant must be reversed, although if the evidence were conflicting the judgment would be affirmed, the case being disposed of as if it had been tried by a jury and the instructions were omitted from the record.

Fourth—A motion by plaintiff to discontinue the case came too late after submission, and was therefore properly overruled.

Ed. Daum, H. C. Weaver and Wm. H. Holt for appellant; Thomas H. Hines and George Doniphan for appellee.

SEEMS as if consumption always picks out the brightest and best. Fully one-sixth of all the deaths that occur in the world are caused by consumption. Many things were once considered impossible. It would be strange if medical science did not make some progress. The telegraph and telephone, the photograph, the electric light—all were once impossible, and once it was impossible to cure consumption. This was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is caused and fostered by impurity in the blood. It is cured by purity and richness in the blood—surely, certainly cured by the "Medical Discovery." It builds up solid healthy flesh and vigorous strength.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover postage only. Address, World's Dispensary Medical Association, Buffalo, N. Y.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest, and is most largely used and gives most general satisfaction.

BAD TIMES?

Well, we should say so. Those Clocks and Watches are too badly out of fix to be of any use. They've lost their time entirely. You'll lose your time, too, if you're unprovided with good Clocks and watches. We have a full supply of both, all accurate time-keepers and in perfect order. Better Watches than ours are not manufactured. Whatever the price of any watch we carry, it's the best of its kind and a full value. Get a timepiece; get the best; get ours.
